

1. Turn breaker off for circuit on outlet where fixture is to be installed.
2. Remove mounting bracket from fixture and install to electrical box
3. Measure distance from ceiling that fixture is to hang. Use number of stems for desired height.
4. Adjust support cables accordingly by pushing spring loaded pin and pushing cable through.
When pin is release it will lock onto cable. Extra cable can be cut but leave at least 10" extra.
Reattach safety stops to end of cable.
5. Install shade K to cables R and secure using screws S.
6. Wire fixture to wires in outlet box. Green wire is for Ground.
7. Install fixture to outlet box and secure with ball nuts.
8. Level fixture by adjusting 4 cables. Attach power wire to cable using clips supplied.
9. Install desired wattage bulbs not to exceed 100 watts.
10. Install diffuser assembly G,H,I,&J to coupler F per diagram below
11. Install diffuser to bottom of J and tighten with nut P and finish with Q.
