

### TO REMOVE THE SOCKET AND WIRE SET

1. Unscrew the Iron screw (F) with Iron key (E) and remove Jack (G) from the wire. Discard the Jack (G).
2. Remove glass (A) from the Socket and wire set.
3. Unscrew screw (H) with a Philips screw driver.
4. Loosen the socket and wire set (S) from nipple set (C). Remove socket and wire set(S). Discard the socket and wire set.

### TO ASSEMBLE THE NEW SOCKET AND WIRE SET

1. Pass the socket wire (S ) through nipple set (C), thread the socket hickey to the nipple. Tighten by turning clockwise.
2. Gently tighten the screw (H) with a Philips screw driver. Take care not to over tighten and break the wire insulation.
3. Pass wire through the glass shade (A).
4. Please refer to the Jack Installation Instruction for instruction on installing the Jack.
