

# ET2 and Philips Hue

Set the new standard in smart lighting

# Meet smart lighting

## for your home

Philips Hue and ET2 have worked together so you can enjoy the richest lighting experience. Use the Philips Hue app, wireless light switches, motion sensors, or even your own voice\* to set the mood for any moment.

Philips Hue also connects to other smart home products, such as smart thermostats and cameras, so you have even more ways to bring your smart ecosystem to life. All you need is the square shaped Philips Hue bridge.

*\*voice control requires a voice-enabled device*

# Easy

to install

**3** Download the Philips Hue app

▶ Follow the instructions to install Philips Hue

**4** Experience & expand

▶ Add more lights and accessories to complete your Philips Hue experience

# What Hue can do

## in your daily life

Light has a profound effect on the human body. It's more than just how we see. It can influence our well-being and how we feel and function. Philips Hue can help bring a unique identity to your new project, or revamp your current space. Create any ambiance you like and impress with memorable experiences.

### Set light schedules

Define the look for every part of the day, using the schedule function in the Hue app.

### Wireless dimming

Experience guaranteed smooth dimming with your Hue integrated fixtures from ET2. Achieve the mood you want at the right time.

## Wake up gently

Waking up the right way can impact your entire day. Create your own sleep routines to dim the lights in the evening or gently wake you up in the morning.

## Four light recipes

Get ready for the day ahead or relax in the evening with a range of cool to warm light settings. Set a tone for each part of your day.

## Be creative

Enjoy a sunset in Honolulu or a night out in London's Soho district. Simply use a favorite photo to instantly change the look and atmosphere.

# Meet the Philips Hue app

for easy setup and control

Transform the way you experience light. Using the Philips Hue App with your ET2 smart light makes it easy for you to get the most out of your lights.

The Philips Hue App is available for iOS and Android devices.

# Control it

your way

You can control your Philips Hue and ET2 smart lights from almost any device, wherever you are.

The Hue bridge is the heart of the Philips Hue system that connects your smartphone or tablet to your Hue lights. You can add up to 50 Hue lights and accessories to one bridge. It also connects your system to the wider world via the Internet.
