# LARMES

A simple idea gracefully executed in the Larmes collection. Row upon row of Clear oversized teardrops, mounted onto an extended Polished Chrome lamp holder that supports xenon lamps, sets the stage. Individually adjustable drops for custom stagger effects allow for dramatic impact. An added benefit of each drop being aircraft cable-suspended, is the ability to adjust the overall height of the piece to fit the space. The final result is stark and stunning.

# CASCADA

A natural wonder sculpted in glass, the Cascada evokes the feeling of a rain shower in a graceful swirl of Egyptian crystal spheres. The rainfall that is evoked by the large and small crystals is made possible by their suspension from strands of sheer monofilament that hang in natural torrents from a chrome flush mounted canopy with puffed metal-vented trim. A conversation piece wherever it's placed, the Cascada illuminates drama on a grand scale.
