

PRODUCT DESCRIPTION

Introducing a new take on the now classically modern LED ring, large illuminated spheres act as "nodes" to support the tapered aluminum channel while also providing additional down light. Featuring a CCT selectable switch, the collection conveniently allows end users to select from warmer white light to energizing bright white lighting in 5 color temperature options. The convenient functionality is matched with its performance, meeting California's JA8 Title 24 requirements. Rated to deliver higher lumens per watt and power sources that supports range voltage input and 3 in one dimming, this product is designed to meet the requirements of both home and commercial projects.
