

## PRODUCT DESCRIPTION

A triumph of scale, craft, and light, Moonscapes transforms celestial inspiration into a breathtaking installation. Monumental in form yet ethereal in presence, each irregularly shaped panel evokes the cratered terrain of the lunar surface with dramatic texture and depth. Precision edge-lit LED technology is seamlessly embedded within a tailored stainless-steel band, guiding soft, diffused light across the cratered surface with astonishing clarity. The result is an illuminated landscape that appears to hover midair--suspended on near-invisible low-voltage cables--achieving both levity and impact. Engineered for large spaces with architectural ambition, Moonscapes fuses technical mastery with poetic design, offering a bold, unforgettable focal point.
