

PRODUCT DESCRIPTION

Kinetic energy expressed in light. Free-form and free-flowing illuminated sculpture that adds a touch of the unique to any room it graces. Celeste provides glamour, featuring crystal glass elements emerging from a metal body and set off with a chrome finish. This ultra modern piece features an assortment of extended arms, which follow a free-form spiraling pattern. On each of the arms, a series of small, flat crystals catch the light projected by a series of Xenon lights that are placed throughout the design to maximize the yield of light.
